### Education

## International Baccalaureate (IB)

**Expected May 2025** 

UWC Mahindra College —HL: Comp Sci, Phy, Econ; SL: Math AA, Hindi Lit, Eng Lang & Lit

#### Central Board of Secondary Examination (CBSE)

May 2023

St. Michael's High School, Patna —Overall Score: 96%

## **Technical Skills**

Languages: Java, JavaScript

**Frontend:** HTML, CSS, React.js, Tailwind, React Native **Backend:** Node.js, Express.js, MongoDB, WebSockets

Other Technologies: GitHub, Unix/Linux Other Tools: Figma, Adobe Illustrator

# Experience

## Frontend Developer and UI/UX Intern at Dumbledore Media

May 2024-Present

- Developed frontend for websites for a travel agency, makeup academy, and others, using React JS and Tailwind CSS.
- Deployed websites using Vercel (frontend) and coordinated with backend engineers. Worked extensively with REST APIs and libraries such as Axios, jsonwebtoken, bcryptjs, and cors.
- Designed Figma layouts for modern, user-friendly interfaces. Collaborated with team members to ensure seamless development and deployment, delivering optimized, scalable, and secure solutions.

## Founder & CEO at notifybear.com

June 2024 - Present

- Building a notification app for content creators and social media users. Leading a team of 5 members and working on the engineering side (React Native).
- \$7000 USD worth of grants from Campus Funds.

#### President of MUWCI e-Cell (Entrepreneurship Cell)

Aug 2023 - Present

• Initiated the club. Lead 12+ members and helping them build startups, organized multiple networking and building events.

### **Projects**

#### MUWCI RoomScout: Find Study Spaces — GitHub

Sept 2024 - Oct 2024

- Spearheaded the development of a platform leveraging **React JS**, **Express JS**, **Node JS** and **Mongo DB** to help people find study spaces on campus. Also, helped MUWCI students connect with m-sqaured (math tutoring group) tutors. 80+ signups in the first week (240 member community).
- Utilized web sockets for dynamics fetching and updating the data on the site, and jwt token for encryption of user data.

#### Makeup Academy Website Development — GitHub

Aug 2024 - Oct 2024

- Designed the user interface and developed the frontend for website for a makeup academy using React JS.
- Deployed the website's frontend on Vercel and coordinated with backend engineers, ensuring scalability and smooth performance.

#### Kiosk-based seat booking system for Pratap Library — *GitHub*

March 2024 - June 2024

- Built a web based touch-screen seat booking system using MERN stack.
- Utilized **web sockets**, **use Effect**, **use State** and other state management capabilities of **React JS** for dynamic fetching and updating.
- Developed a backend using mongoose, mongoDB and express is and set up an admin panel for the owners.
- Used 300+ times at the booking location.

## **Achievements**

- Granted \$7000 USD for tech startup by **Campus Funds VC**.
- Recognized by orgs like **Azad India Foundation**, **Edu4Equ**, **Dainik Bhaskar**, etc. for social entrepreneurship.
